

Heisplan

Inspired in design, comfort and simplicity, PRIME offers a range of extraordinary possibilities. We combine creativity, technical know-how and professional commitment for an exceptional construction and lifelong durability. All of our platform lifts comply with European standards and regulations.

PRIME EXTERIOR 2000 is a platform lift suitable for outdoor environments. It can travel up to 3 meters, and is ideal for installation outside public buildings like childcare centers, stores and schools. Requiring minimal construction work, PRIME EXTERIOR 2000 can be quickly and easily installed. No additional modification to the existing building is necessary. A normal installation is completed in a few days. Safety edges, hold-to-run functionality and battery operated emergency lowering as well as a robust construction ensure that the lift is highly secure and safe.

Measurements

Platform length	1400 mm	Door height	1100 mm	Travel height*	250 – 3000 mm
Platform width	950 mm	Door width	900 mm		

Drive system: Self-sustaining patented screw/nut system

Rated speed: max. 0.15 m/s

Control: Hold to run

Technical compliance: European machine directive 2006/42/EC

Rated load: 350 kg

Number of stops: 2

Number of doors: 2, one per landing

Pit: Not required, ramp always delivered

Environment: Outdoor

* Depending on installation site.

Power: 1-phase 230V 50 Hz/9 A/16 A slow

Lift control: Keyswitches or buttons on landings and platform

Emergency lowering: Battery operated power failure lowering

Control supply: 24 V

Motor: 1.5 kW

To see the full range of style and functional possibilities, see our options catalogue which can be downloaded from our website.

Due to continuous product development, specifications are subject to change without notice.
