

Heisplan

Inspired in design, comfort and simplicity, PRIME offers a range of extraordinary possibilities. We combine creativity, technical know-how and professional commitment for an exceptional construction and lifelong durability. All of our platform lifts comply with European standards and regulations.

PRIME EXTERIOR 7000 is designed for outside use and equally suited to cool northern conditions as well as hot sunny climates. Typically installed at offices, schools and apartment buildings, the lift can be accustomed with any number of different options, materials and wall colours so that it can blend right into the environment. PRIME EXTERIOR 7000 comes in two different sizes and can travel up to 13 meters. Installation can be completed in a few days. The lift is supplied with a heater, ventilation system and outer roof.

Measurements

Platform length	1480 mm
Platform width*	1000 mm
Door height	2040 mm
Door width	900 mm

Shaft depth	1600 mm
Shaft width	1375 mm
Travel height**	250–13000 mm

Top height full door	2240 mm
Top height half door	1100 mm
Structural opening	1630x1405 mm

Drive system: Self-sustaining patented screw/nut system

Rated speed: max. 0.15 m/s

Landing control: One touch call

Platform control: Hold to run

Technical compliance: European machine directive 2006/42/EC

Rated load: 410kg/5 persons

Number of stops: max. 6

Number of doors: max. 3 doors per floor

Pit: 50 mm (with ramp no pit is required)

Environment: Outdoor

Environment adaption: Shaft heater and ventilation, outdoor roof, IP classified door locks

Power: 1-phase 230V 50Hz/9A/16A slow
 3-phase 230V 50Hz/9A/16A slow
 3-phase 400V 50Hz/5.2A/16A slow

Emergency lowering: Battery operated power failure lowering

Control supply: 24V

Motor: 2.2kW

To see the full range of style and functional possibilities, see our options catalogue which can be downloaded from our website.

* Optional platform size is available, see options catalogue. ** Depending on installation site.
