# MOBILITY TO THE MAX

## MP ARES MOBI

---

Removing architectonic barriers  
Load capacity 630 kg, travel 18 m

### 100% Accessibility

Stairs can make daily life harder, especially for older people and those with reduced mobility.

MP ARES MOBI has been conceived within the MP MOBILITY range as the solution to remove architectonic barriers.

MP adapts to your space. For this reason we have a wide range of products developed especially to bring additional accessibility to private buildings, such as your home, or public buildings like schools, restaurants, shops, banks, offices... we can provide for any type of building.

Technology solutions designed taking into account all construction limitations.

Effective, safe and reliable options, with a multitude of choice with respect to aesthetics and finishes.

Regaining accessibility is much more easier than you may have imagined.

Because thanks to MP ARES MOBI, your environment can adapt to the new life style.

ENDLESS  
MOBILITY

## MP ARES MOBI

Safety and silence

### Customized solution

The MP ARES MOBI lift has been designed and manufactured by MP.

It is the ideal accessibility solution for any building type with 2 to 6 stories. MP ARES MOBI has the same state-of-the-art technology that is used in our traditional lifts: electronic control with microprocessor, automatic call registering system (constant button pushing is not necessary), hydraulic power unit with two different speeds providing a low noise level and reduced energy consumption.

Reliability which is endorsed by the new Directive on machinery 2006/42/EC. For some models there is the option of supplying accessories needed to comply with the technical specifications for the accessibility standard EN81-70.

Car D100  
with Classic operating panel

## FLEXIBILITY WHICH MEANS MORE FREEDOM

MP ARES MOBI offers great flexibility for installation, assembly and aesthetics, which ensures effective solutions whatever the case. It can be installed in **new builds and existing buildings, both inside and outside the building**, given that it is complemented by the **self-supporting MP-STRUCTURA**. This system replaces the traditional work space, and can be joined directly to the wall without exerting loads onto the building.

Although Miniplane assembly is extremely simple, it does not mean that it is not powerful. It has a load capacity of between **180 kg and 630 kg**, and can easily carry **up to 8 people**, thanks to its 4XL car, measuring 1,100 x 1,400 mm. And, since silence means comfort, MP ARES MOBI works with **noise levels that are less than 50 dB**, thanks to its power unit submerged in oil, and its silent contactors in the operating panel.

## MP ARES MOBI SAFETY

- **Alarm button** and door open button
- **Emergency lighting** in the car if there is a power cut
- **Overloading control** optical-acoustical
- Emergency phone **Fonomac II**
- **Non-slip rubber flooring**
- **Automatic rescue** if there is a power failure
- **Manual rescue** in response to the emergency button in the hydraulic power unit
- **Safety gear valve** if the hydraulic pipe breaks
- **Two parachutes, safety gears** if the cables break or become slack
- **Mechanical locking in the pit and overhead space against uncontrolled movements in the car** (for maintenance work in the shaft)
- **Automatic disconnection of the equipment** when the landing door is manipulated to access inside the shaft
- **Two reset keys** (pit and overhead) in the controller
- **Out of service key** on the floor hall station
- **BUS automatic door** in the car

## THE VERY FINEST DETAIL

### CARS AND FINISHES

---

Also effective in aesthetics and comfort

Aesthetics are just as important as efficiency. As such, MP ARES MOBI introduces all of the complements and finishing touches which will improve comfort of your lifting platform. Furthermore, there are several options for finishes, colours and models which will allow you to adjust the final appearance to your personal taste. Because functionality can also be beautiful.

#### SERIES C and D CARS

- **Walls:** white plastic-coated steel or stratified laminated steel in Classic and Timber
- **Floor:** Non-slip rubber, granite and marble
- **Lighting:** Florescent lighting in the suspended ceiling
- **Handrail:** Tubular
- **Operating panel:** Classic or Avant panel with Roller Saturno buttons, characters in relief and Braille, bidirectional phone for emergency calls (Fonomac II)
- **Car doors:** Automatic BUS
- **Other options:** Automatic telescopic doors, full operating panel with Compac pushbuttons

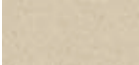

Car: C600 FULL C.O.P., COMPAC PUSHBUTTON
